

Focus Area

- Social enterprises with a focus on fair trade groups.

Ideal Applicant

1. Is a small, capable and emerging group that would otherwise be unable to afford organization management software like NetSuite.
2. For-profit or nonprofit organization.
3. Focused on automating a single business process like ecommerce.
4. Can clearly articulate social impact and offer metrics to measure it.
5. Has the organizational capacity to implement NetSuite software and use it to accelerate their social impact, as measured by their metrics.

Metrics

NetSuite is often asked to provide guidance on the metrics used to measure social impact. We are experts in automating organizational processes and helping generate visibility into the metrics that drive operations. We are not, however, experts in your operations. You tell us.

Background

NetSuite is a leading vendor of on-demand, integrated business management application suites for small and medium-sized businesses. We provide a comprehensive suite of enterprise resource planning, or ERP, customer relationship management, or CRM, and e-commerce capabilities that enables customers to manage their critical back-office, front-office and web operations in a single application.

NetSuite Giving mobilizes the core resources of our company—our software and our people—to support groups generating positive social impact. We donate our Software as a Service (SaaS) along with service grants—employee volunteer support to assist grantees get up and running.

Deadlines

Awards are made on a rolling basis.

Award

NetSuite.org donates software licenses. The standard donation includes:

- Full NetSuite, 5 user licenses, silver support.
- Implementation materials.
- Additional items and users may be purchased at a discount and/or may be donated.

Selection Criteria

- Is the applicant is qualified?
 - NetSuite does not grant to individuals.
 - Primary purpose is non-religious and non-political.
 - Group does not discriminate on the basis of race, ethnic or national origin, religious affiliation, gender, sexual orientation, age, disability, physical appearance, language, educational background or veteran status.

- Are the applicant's goals achievable?
 - Automation of a single, achievable business process. Projects focusing on ecommerce, accounting, and/or fundraising/donor management are preferred.
 - Applicant understands NetSuite software and how it can fit their needs.
 - More complex implementations are fine if the organization has sufficient capacity.
- Does the applicant generate significant social impact?
 - Applicant clearly articulates their social impact and offers at least one metric.
- Does the applicant have sufficient organizational capacity?
 - Applicant demonstrates the knowledge, staffing and willingness to allocate the resources required to implement an integrated, web-based ERP/CRM system.
- How big a difference does the donation make?
 - A donation can increase operational effectiveness leading to improved social impact.

The Application Process
